Hello Wendy,

I hope you are doing well. Thank you for your email. CodeRED has an add-on feature, Foreign Language Message Translation. This feature helps our customers with diverse communities broaden their reach when sending out notifications through CodeRED.

CodeRED's advanced message translation functionality supports voice and text fonts in more than 20 different languages. Translation capabilities are powered by Microsoft Translator, which allows native type in English to be translated directly through the user interface. The feature sends alerts in a resident's preferred language (opt-in).

We can add this to your plan if you are interested. The cost to add this to your existing plan is \$250 annually for up to three (3) languages. If you need more than three (3) let me know and I can work with you on pricing.

My direct line is listed below or feel free to let me know if you want to set up a time to review this feature in more detail. In the meantime, I have attached some information for you.

Thank you kindly,
