Moreover, this By-Law does not supersede any state or federal laws or regulations or private covenants.

#### Section 4: Effective Date

This Bylaw shall be effective upon approval by the Massachusetts Attorney General and the publication and posting as required by law.

#### Section 5: Disclosure Notification

In order to allow prospective purchasers or tenants to make informed decisions prior to a real estate transaction or rental agreement, and to promote harmony between farmers and their neighbors after such transactions, the Town of Montague requests that sellers and landlords and/or their agents (and assigns) provide written notification to prospective buyers and renters substantially as follows:

“It is the policy of this community to conserve, protect and encourage the maintenance and improvement of agricultural land for the production of food and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform buyers or occupants that the property they are about to acquire or occupy lies within a town where farming activities occur. Such farming activities could include, but are not limited to, activities that cause noise, dust, and odors, and could occur by day or night on weekdays, weekends, and holidays. Occupying land within the Town of Montague means that one could expect and accept such conditions as a normal and necessary aspect of living in such an area”.

Written notification to buyers or renters may occur in one of several ways, including but not limited to disclosure forms, or as an addendum to a Purchase and Sale Agreement or rental agreement.

Within 30 days after this Bylaw becomes effective, a copy of the above notification will be displayed at the Town Hall and posted on the Town’s website. A copy of the notification shall be included in the Town’s annual report. The notification shall also be available for distribution upon request in the offices of the Select Board, Board of Assessors, and Town Clerk.

#### Section 6: Resolution of Disputes

Any person having a complaint about a farm or farming activity is encouraged to seek an amicable solution directly with the owner or operator of the farm at issue. Such person may, notwithstanding the pursuit of any other available remedies, request resolution assistance directly from the Agricultural Commission, or file a complaint with the Town Administrator, Select Board, Board of Health, or Zoning Enforcement Officer. The filing of a grievance does not suspend the time within which to pursue any other available remedies. The Town officials may forward the complaint to the Agricultural Commission if deemed appropriate and the Commission can help to seek an amicable resolution through facilitating discussion between the parties. The Agricultural Commission will report back to the Town officials on the outcome within a reasonable time frame. Any complaints brought directly to the Agricultural Commission will also be forwarded to Town officials, so that they may help determine whether any public health or other laws and regulations are being violated.

#### Section 7: Severability Clause

If any part of this By-law is for any reason held to be unconstitutional or invalid, such decision shall not affect the remainder of this By-law. The Town of Montague hereby declares the provisions of this By-law to be severable.

## Montague Public Tree Protection Bylaw

### 1. Preamble

The Town of Montague recognizes that trees are an asset to the community and provide a healthier and more beautiful environment in which to live. Trees improve air quality and provide shade, wildlife habitat, and beauty. Trees store carbon, give protection from wind, glare and noise, and act as barriers and water quality protection. Public trees and landscaping are economically beneficial in attracting new residents, shoppers, visitors and industry. When properly chosen varieties are planted in appropriate settings, trees enhance property values, promote the economic viability of commercial districts, and enhance the desirability and sustainability of residential neighborhoods.

### 2. Intent and Purpose

This by-law is enacted for the purpose of preserving and protecting public trees pursuant to Massachusetts General Law Chapter 87. It is also enacted to encourage the planting of more public trees than are removed to compensate for tree losses and the time it takes for trees to mature.

### 3. Definitions

**Critical Root Zone (CRZ):** Defined by measuring outwards from the trunk a minimum of 1.25 feet for every inch diameter of tree trunk four feet above the ground. For any tree, a minimum of six feet must be protected around trees regardless of the trunk diameter.

**Public Tree:** Any public shade tree, tree in a municipal park, or tree on Town-owned land adjacent to or within 200 feet of any public building, but not including trees within State highways.

**Public Shade Tree:** All trees within a public way or on the boundaries thereof including trees planted in accordance with the provisions of section 7 of Chapter 87 of the Massachusetts General Laws and this Bylaw, shall be public shade trees; and when it appears in any proceeding in which the ownership of or rights in a tree are material to the issue, that, from length of time or otherwise, the boundaries of the highway cannot be made certain by records or monuments, and that for that reason it is doubtful whether the tree is within the highway, it shall be taken to be within the highway and to be public property until the contrary is shown.

**Right-of-Way:** All land within the boundaries of the public right-of-way as set forth by an order of the town laying out a public way. The public right-of-way may include not only the traveled surface of the public way but lands adjacent thereto, including sidewalks and the tree belt.

**Drip Line:** Drip line of a tree is the area defined by the outermost circumference of a tree's canopy, where water drips from and onto the ground.

**Hazardous Tree:** Any public shade tree which endangers persons travelling on a highway and any other public tree which presents a threat of injury or damage to persons or property.

### 4. Tree Warden

The duties and responsibilities of the Tree Warden shall conform to the Massachusetts General Law Chapter 87 and shall include, but not be limited to the following:

The Tree Warden may not remove, permit the removal of, or cause to be destroyed any public tree measuring 1.5 inches in diameter, measured one foot from the ground, or more without a duly advertised public hearing as specified in Massachusetts General Law Chapter 87, or if objection is given at or prior to the hearing in writing, without the additional approval of the Selectboard, unless that tree is determined to be a hazardous tree as defined herein.

The Tree Warden and their deputies, but no other person, may, without a hearing, trim, cut down or remove public trees, less than one and one half inches in diameter one foot from the ground, and bushes, standing in public ways; and, if ordered by the Selectboard or Highway Superintendent, shall trim or cut down trees and bushes, if the same shall be deemed to obstruct, endanger, hinder or incommode persons traveling thereon or to obstruct buildings being moved pursuant to the provisions of section eighteen of chapter eighty-five of the Massachusetts General Laws.

Utilities, as defined in section 14 of Chapter 87 of the Massachusetts General Laws, shall be exempt from the requirements of this section with respect to any work done in accordance with an Annual Vegetation Management Plan or an Annual Hazardous Tree Removal Plan, provided that the work complies with said plan and the procedural requirements of said section 14 of Chapter 87.

No public trees, except those smaller species appropriate for planting under utilities, shall be planted within 10 lateral feet of an overhead electric utility wire.

Consistent with Massachusetts General Law Chapter 87, the Tree Warden may plant trees within 20 feet of the public right-of-way with the written consent of the adjoining land owner. Such trees shall not be considered public trees and the Property owner will own the tree immediately after planting and is responsible for the maintenance for the lifetime of the tree. The Tree Warden

may require a one-time cost share for the expense of the tree.

Any public tree planted on property owned by the Town of Montague shall become the property of the Town.

#### 7. Permission for Pruning or Trimming Public Trees

The Tree Warden may, without a hearing, grant written permission to trim or prune portions of public trees.

In cases of emergency, the Tree Warden may, without a hearing, grant written permission to trim or excavate within the drip line of a public tree.

An emergency is defined as an unforeseen occurrence, which requires immediate action to avoid or reduce significant injury or damage to persons or property.

If the applicant proposes to trim or prune or excavate within the dripline of a public tree, and if, in the opinion of the Tree Warden, the proposed work will drastically affect the health, beauty, structural stability, or safety of the tree, the Tree Warden may consider the proposed work to have the same effect as the removal of the tree. In these cases, the Tree Warden may either order the removal of the tree, or allow the tree to remain, provided that it does not present an imminent hazard. In either case, appropriate replacement plantings must be provided by the applicant.

Nothing contained in this bylaw shall prohibit the Tree Warden from refusing to permit the cutting, trimming or removal of non-hazardous trees.

#### 8. Replacement of Public Trees

Public trees shall not be removed for a private purpose without suitable compensation to the Town for replacements. The value of existing public trees is to be calculated on an inch-by-inch replacement basis. Replacements shall be at least two-inch trunk diameter, nursery grown stock. The Tree Warden may, at their discretion, require larger replacements. For example, if an 18-inch diameter tree, measured four feet above grade is to be removed, the applicant must sufficiently reimburse the Town to provide for the purchase and planting of nine, two-inch diameter replacements. At the discretion of the Tree Warden, the applicant shall either:

- A. Arrange to plant suitable replacements using his/her own contractor, working to the Town's specifications, or
- B. Make a cash contribution to the Town to be used exclusively for the purchase and planting of replacements, and related expenses.

#### 9. Removal of Hazardous Trees

The Tree Warden may remove, without a public hearing, a tree that is determined by the Tree Warden, to be a Hazardous Tree. The Tree Warden shall maintain a photographic record of all hazardous tree removals.

The hazard determination shall be made based on an objective risk tree rating system such as the USDA Forest Service 12-point Risk Tree Rating system or the International Society of Arboriculture Hazard Tree Evaluation system. Hazardous trees shall be prioritized for pruning, removal, or otherwise minimizing the risk based on hazardous trees objectively presenting the most risk.

#### 10. Penalties and Enforcement
